Healthcare Reform demands that we all manage our patients more efficiently!
Please help us understand what resources you currently have in place to insure that your musculoskeletal patients are managed efficiently & effectively.

What type of Practice?

- Family Practice
- Pediatric
- Orthopedics
- Internists
- Sports Medicine
- Pain Management
- OB/GYN
- Podiatry
- Other: _____

___ # of MDs in Your Practice

___ Estimated # of Musculoskeletal Patients seen/week

Out of every 10 patients you see with musculoskeletal problems:

- ___ # are being seen for this complaint the first time?
- ___ # are being seen for this complaint again and might benefit from further evaluation, exercise & prevention training?
- ___ # are being considered for referral to Physical Therapy services?
- ___ # that have been referred to physical therapy and are managed efficiently & effectively?
- ___ # of patients you would consider sending to a new practice that meets all of your expectations

What factors are important to you in working with a PT Provider? (Please indicate ALL that Apply!)

- Services are provided by a consistent PT 1:1 that sees my patient each time?
- Services are provided by an experienced, highly skilled therapist?
- Reports are provided to me so that I can best manage my patients?
- My patients are seen promptly -within 1-2 working days - and scheduled conveniently (after work hours) so that patient compliance can be achieved.
- My patients are treated by therapists who develop plans that create rapid change & limit out-of-pocket costs to the patient & the health plan.
- Other important factors:
